Finding Supervisees

Here are some ideas for getting going as a Supervisor

- **Work Setting:** Perhaps this offers opportunities for you to supervise colleagues. Pay attention to role and boundaries.... Ideally, you need to only be in the supervisor role and not a mixed role of manager and supervisor.
- **Private Practice:** You can advertise an offer of low-cost supervision on any available websites, indicating clearly that you are in training as a supervisor with CSTD Bath.
- **Specific arrangement with a colleague:** You can set this up as long as you adhere to clear boundaries (structure, timekeeping etc). And role – you are to be clearly in this position as Supervisor only.
- **Agency work:** Many people have offered their services as a volunteer supervisor within an Agency. This scenario has generally been productive for gaining experience as a supervisor, albeit working within any Agency guidelines. CSTD has a special arrangement with BCPC (Bath Centre for Psychotherapy and Counselling) and provides supervisors for their low-cost counselling and psychotherapy service (see below).

CSTD student supervisors working within BCPC's low-cost counselling and psychotherapy service

- The BCPC placement is on offer to CSTD supervisors who are UKCP registered. This is because BCPC students (of either psychotherapy or counselling) need to be supervised by someone who is UKCP registered in order to be able to count the hours towards their qualification
- The ultimate line of authority/responsibility lies with BCPC who obviously have ownership of the placement. If CSTD supervisors have any issues they can of course discuss them with their supervisor-on-supervision. But any pressing concerns should be addressed to BCPC via the Placement Coordinator. CSTD supervisors and supervisors-on-supervision should not expect to unduly influence the students working in the placement by suggesting courses of action which may run counter to BCPC's expectations and established procedures.

Assignment Titles and Writing Guidelines (for Diploma Students)

Assignment Titles

Each assignment will be marked by your Tutor

First Assignment: Fundamentals of Supervision 2000 words

Write a document in two parts - to use directly with your current and prospective supervisees, and to prepare/develop your thinking about your supervision practice.

Part One: a short statement about the practical arrangements of your work (where, when, payment, cancellation etc)

Part Two: a more extended piece for yourself (to clarify your ideas for when you are meeting someone for the first time). This should outline why supervision is important, what it covers, how you work as a supervisor, and how your supervisee's clients will benefit from supervision.

Second Assignment (following your choice of Optional Modules) 2000 words

Write up a Supervision session (individual or group) showing the following: how you have applied what you have learnt on your two optional Modules, and how your learning has informed your reflection on the session.

Third Assignment: Supervision Integration 2000 words

Write a reflective piece on your journey through the supervision training. Include your reflections on the 360 degree feedback process on the Module. Discuss your understanding of your strengths as a supervisor as well as your learning needs in this role, and indicate how these will be attended to in your future development.

Writing Guidelines

These guidelines are designed to assist you with your assignments for the CSTD Modules. You write an assignment for the two required Modules (*Fundamentals of Supervision* and *Supervision Integration*). You choose TWO further Modules (from the following: *Psychotherapeutic Supervision*, *Working with supervisees in organisational settings*, and *Group Supervision*) and write an assignment showing how you have applied what you have learnt on these Modules.

Assignment Presentation

Assignments should be typed on A4 paper using a clear font at point 11 or 12. Include a cover sheet with the following details: Name, Date, Module, Assignment Title, Word Count (this can be +/- 10% of the 2,000 word limit). All assignments should have page numbers indicated. Send your assignment to your tutor electronically and bring a hard copy to your tutorial to enable discussion and feedback.

Style

It is important that you find your own way with writing. Within that, you need to combine your personal thoughts on the topic with academic authority (critical reflection and accurate referencing) and examples need to be given from your own supervision practice.

Critical Reflection

This encourages an attitude of evaluating information both in the light of your own experience and with reference to the views of others. Characteristics of critical reflection include:

- A spirit of open inquiry
- Trust in one's own experiences and ideas
- Flexibility in considering and presenting alternative views
- Holding an awareness of not making judgements
- Remaining open in the face of difference

Referencing

This is important as an academic convention that enables readers of your work to understand the development of your ideas and to follow up sources themselves if they wish to do so. Accurate referencing is also important in relation to copyright law and avoidance of plagiarism.

Referencing in the text of your assignment

Quotations should be in italics. Use single inverted commas. Put the reference detail in brackets as indicated below:

Hawkins and Shohet (2012) discuss how supervision is linked to reflective practice – *'Supervision develops out of the rich soil of reflective practice and in turn is a key element of supporting and developing the reflective practice of all who work in the helping professions'* (Hawkins and Shohet 2012:16)

Your Bibliography for this quotation would be put at the end of the essay and be written as follows:

Hawkins P & Shohet R (2012) (4th edition) *Supervision in the Helping Professions* McGraw-Hill Berkshire UK: Open University Press (first published 1989)

Ideally you can now use the 5th edition for your referencing (Hawkins & McMahon 2020)

Further points

- Brief quotations can be included in the *text* of your work
- Longer quotations are given as separate paragraphs, usually indented from the text margin
- Quotations may also come from Journals, Newspaper articles, Conferences. Provide as much detail as possible regarding the source/publisher/date
- Internet Referencing – specify the date on which you accessed the item and include the full internet linkage eg: www.cstdbath.co.uk/supervisoncourses (accessed 12/02/2014)
- Personal Communication: this is when you may have had a conversation/letter/email exchange with someone and you wish to refer to it. After the quotation provide the person's name or initials and the date in brackets – for example: (Personal Conversation Judy Ryde 2013)

CSTD Certificate and Diploma – UKCP recognition

Both the Diploma and Certificate are recognised by The United Kingdom Council for Psychotherapy (UKCP) as 'Recognised Supervisor Training' (RST)

Whatever your profession you can use this in your advertising – for example
'I have completed Supervision Training with CSTD Bath (Centre for Supervision, Training and Development) and have obtained a Certificate/Diploma Award. CSTD Bath is endorsed by The United Kingdom Council for Psychotherapy as a 'Recognised Supervisor Training' and meets all UKCP's requirements for Supervision Training'*
(* delete as appropriate)

If you are a UKCP registered Psychotherapist and wish to be listed by UKCP in their DIRECTORY of Supervisors (they do not yet have a Register of Supervisors) you need to do the following once you have the CSTD Award:

- Write to the CSTD Administrator (info@cstdbath.co.uk) and give her the name of your original Training Institution (eg BCPC, Metanoia, The Minster Centre, Sherwood Institute etc etc – the Organisation that has accredited you)
- Ask the Administrator to forward your name and the name of your accrediting organisation to the secretary of the HIPC section of UKCP – this is currently Pauline Powlesland .(Pauline will add you to the HIPC Directory of UKCP and she will also forward your name for the overall UKCP Directory)

PLEASE NOTE: For UKCP registered Psychotherapists

When the UKCP Register is drawn up there will be criteria for entry connected to Training Standards. These are *likely* to include having completed written work. So taking our Diploma route is probably the best option in terms of ease of inclusion onto the Register (or having a plan to ultimately convert your Certificate to a Diploma)

Events for People who have undertaken the Diploma or Certificate with CSTD Bath

We hope that people who have qualified with CSTD and gained our Diploma or Certificate will keep in touch with us through supervision groups and workshops. We value the community of supervisors who are trained with us in terms of shared on-going learning and exchange.

To that end we have an on-going monthly evening supervision group for supervision of supervision run by Judy Ryde in Bath at Barrow Castle. You can find details of this on the website and by ringing Judy on 01225 444911. We ask for a commitment of 5 sessions for the group and the current price can be found on the website or by phoning. In this way, we hope to have some continuity but allow new people to join each half year.

We will also put on workshops (mostly one-days) from time to time and you will be informed about them by email. Details can also be found on the website. If you would like a particular supervision issue to be discussed, then you could let us know and we may be able to run a one day on the subject.
